

Cleopatra Hospitals Group Enters Into Exclusive Agreement to Acquire a Majority Stake in One of Egypt's Largest IVF Fertility Centres

Through the acquisition, CHG will further expand its service offering and add a new high margin specialty to its current roster.

Cairo, Egypt | 16 June 2019

Cleopatra Hospital Group S.A.E. (CLHO.CA on the Egyptian Exchange), Egypt's largest private hospital group by number of hospital beds and number of operating hospitals, has announced it has entered into an exclusive agreement to acquire a majority stake in one of Egypt's largest In Vitro Fertilization (IVF) centres in Cairo, subject to the successful completion of the required due diligence process and relevant documentation. The transaction, which the Group expects to conclude by late 2019, will see CHG venture into a new, fast growing and high margin segment which will further strengthen its service offering. The target acquisition currently offers an extensive list of services including obstetrics, gynaecology, infertility, andrology, erectile dysfunction, dermatology, reproductive health and laser treatments, nutrition and health coaching, fetal medicine, psychology, and family health services.

"The acquisition not only sees CHG further strengthen its service offering in line with our expansion strategy, but sees us venture into a new, fast-growing and high margin segment reinforcing our position as leaders in the Egyptian healthcare sector. Acquiring one of Egypt's leading fertility clinics with an established track record of high-quality service delivery, will enable CHG to roll-out market-leading IVF services across our entire network of hospitals in the coming period," said Cleopatra Hospitals Group CEO Dr. Ahmed Ezzeldin.

Forward-Looking Statements

This communication contains certain forward-looking statements. A forward-looking statement is any statement that does not relate to historical facts and events, and can be identified by the use of such words and phrases as “according to estimates”, “anticipates”, “assumes”, “believes”, “could”, “estimates”, “expects”, “intends”, “is of the opinion”, “may”, “plans”, “potential”, “predicts”, “projects”, “should”, “to the knowledge of”, “will”, “would” or, in each case, their negatives or other similar expressions, which are intended to identify a statement as forward-looking. This applies, in particular, to statements containing information on future financial results, plans, or expectations regarding our business and management, our future growth or profitability and general economic and regulatory conditions and other matters affecting us.

Forward-looking statements reflect our management’s (“Management”) current views of future events, are based on Management’s assumptions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. The occurrence or non-occurrence of an assumption could cause our actual financial condition and results of operations to differ materially from, or fail to meet expectations expressed or implied by, such forward-looking statements. Our business is subject to a number of risks and uncertainties that could also cause a forward-looking statement, estimate or prediction to become inaccurate. These risks include fluctuations in the prices of raw materials or employee costs required by our operations, our ability to retain the services of certain key employees, our ability to compete successfully, changes in political, social, legal or economic conditions in Egypt, worldwide economic trends, the impact of war and terrorist activity, inflation, interest rate and exchange rate fluctuations and Management’s ability to identify future risks to our business and manage the risks mentioned above in a timely and accurate manner.
