

EGX's Trading Rules & Mechanisms Reforms

The Egyptian Exchange
البورصة المصرية

EGX Decisions regarding the development of the trading rules and mechanisms to enhance market liquidity.

- 1. Trading halt time:** suspension of trading on a particular stock for 10 minutes when price changes by $\pm 5\%$ (currently).
- 2. Specialized activities:** Lists of stocks allowed to be traded using margin trading and intra-day.
- 3. Intraday trading:** is allowing investors to sell their purchases of stocks during the same trading session.
- 4. Margin trading:** allowing investors to use leverage to partially finance their purchases of securities that are used as collaterals against this borrowing.
