

# Market Maker

Activating the market maker on listed companies came within EGX efforts to raise the market's efficiency and liquidity rates; after the approval of the Financial Regulatory Authority.

The market maker's role is to provide buys and sell orders on the share by creating its market through continuous providing for the quantities and prices of this share. This should contribute in raising the market's activity as well as raising its efficiency.

Worth mentioning, the Decree issued for the market maker's came within the Minister of Investment Decision No. (293) for year 2007.

## Market Maker's Key Commitments

## Criteria for Eligible Securities

The market maker's mechanism is allowed for all listed shares, except for shares that violated the capital market's regulations such as:

- 1 Significant disclosure violations during the audit period.
- 2 Company officials' or associated persons who are accused of trading violations during the audit period.
- 3 The existence of criminal cases against any of the company's officials during the audit period.

## How to Become a Market Maker
